TURBOFLO

PUMP

The DAYLIFF range of TURBOFLO pool pumps are robust, high flow pumps suitable for swimming pools and spa applications. Features include high efficiency hydraulic components for enhanced filtration performance and an extra large pre-filter strainer with a transparent cover to view collected debris accessed by an easily unscrewable ring nut that provides secure strainer sealing. Pump construction is corrosion and pool chemical resistant glass filled thermo-plastic throughout.

MOTOR

Pumps incorporate a TEFC motor with built-in thermal overload protection. The motor can be connected to mains electrical supply through a 10A fuse or MCB, though additional protection is recommended where there is risk of voltage fluctuation.
