

The DAYLIFF DDW submersible pump range are centrifugal submersible pumps designed for small scale drainage, irrigation, fountain and water transfer applications. Two versions are available, the standard S version with open impeller for lightly turbid water and the vortex V version for water with higher silt loads.

### Features

- Light and simple to install
- Constructed of high strength engineering plastic
- Provided with float switch for automatic level control
- Supplied with 5m power cable and a union connected outlet suitable for threaded or hose connection.
- Fitted with integral induction motors designed for continuous operation with thermal cut out to protect against motor overload.
- Enclosure Class: IPX8
- Insulation Class: B
- Voltage: 1x240V

### Operating Conditions

**Pumped liquid:** Thin, clean, chemically non-aggressive liquid containing some particles and fibres

**Max fluid temperature:** +35°C

**Max Operating Depth:** 8m

### Pump Data

Model	kW	Current (A)	Dimensions (mm)			Max. Particle Size(mm)	Weight (kgs)
			Outlet	W	H		
DDW 750S	0.75	5.2	32	220	320	30	5
DDW 750V	0.75	5.2	32	250	350	35	6
